- (5) With the sanction of the Excise Commissioner, any other officials.

The 2nd February 1893.

No. 13474—R. F. 210-92.—With reference to Government Notification No. 8305—R. F.—209-92, dated 14th December 1892, and No. 8372—R. F. 210-92, dated 15th idem, the Deputy Commissioners of Districts are hereby authorized to revise, correct or re-arrange subject to the approval of the Excise Commissioner, the arrack and toddy vend farms shown in the schedules appended to the aforesaid Notifications.

No. 13554—R. F. 184-92.—Under Section 1 of the Special Rules for the grant of loans for the construction of Irrigation wells published under Notification No. 183, dated 21st July 1891, it is hereby declared that the said rules shall apply to the Taluk of Kadur and the Maidan portion of the Tarikere Taluk, in the Kadur District.

THE 27TH JANUARY 1893.

No. 12981—R. F. 208-92.—The following Rules framed by the Government of His Highness the Maharaja of Mysore under Section II Act XVI of 1863 as extended to Mysore by Regulation 11 of 1885 for the Methylation, Storage, Fixing the value, and Sale of Spirits rendered effectually and permanently unfit for human consumption are hereby promulgated for general information.

A register in the form appended shall be maintained at distilleries and warehouses whence methylated spirits are issued under Act XVI of 1863 and the following instructions shall be observed in this behalf :—

(i) Spirit methylated for use exclusively in arts, manufactures or chemistry, and which has been rendered effectually and permanently unfit for human consumption; is subject only to an *ad valorem* duty of 5 per cent on the value of the spirits alone, and not on that of the mixture.

(ii) Whenever spirit is to be rendered effectually and permanently unfit for human consumption, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part by volume of the caoutchoucine to 99 parts by volume of the spirit, which shall not be of less strength than 30° over proof.

(iii) But when it can be proved to the satisfaction of the Excise Commissioner in Mysore that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained from that officer for the use of woodnaptha (Methylic Alcohol) instead of caoutchoucine. In this case, one part by volume of crude woodnaptha shall be mixed with nine parts by volume of spirits having a strength not less than 30° over proof.

(iv) The caoutchoucine or the woodnaptha before its admixture with the spirit must be tested by the Chemical Examiner to Government, who must certify to the Excise Commissioner in Mysore that it is of the proper strength and fitted, if used

in the above mentioned proportions, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed.

(a) Should it be found impracticable to obtain caoutchoucine or crude woodnaptha of the required quality to mix in the aforesaid proportions, the Chemical Examiner shall direct the said proportions to be so raised as to render spirits mixed therewith effectually and permanently unfit for human consumption ere issued:

(v) The caoutchoucine or woodnaptha so tested and certified by the Chemical Examiner shall be kept under the lock and key of the Distillery Officer in whose presence only methylation shall be allowed.

(vi) No methylated spirits shall be allowed to pass out of a distillery or warehouse unless covered by a Pass issued by the Officer in charge thereof.

(vii) For the purpose of fixing the amount of duty to be levied on such spirits, their market-value shall be determined by the Excise Commissioner in Mysore subject to approval of Government.

(viii) No greater quantity than 100 gallons of spirits shall be passed for sale under a single permit to any trader without the sanction of the Excise Commissioner in Mysore who shall be at liberty to refuse a permit on this or any other grounds without assigning his reasons except to Government in case of appeal.

(ix) Materials intended for use in the methylation of spirits must be delivered by the distiller of the Government Central Distillery at Bangalore into the charge of the officer who will take a sample from each separate cask or parcel thereof and forward the same to the Excise Commissioner in Mysore for transmission to the Chemical Examiner, and will secure the bulk under a lock in a separate secure room or godown to be provided by the distiller. No portion of such bulk shall be used for the purpose of methylation or be transferred to the warehouse until the receipt of the Chemical Examiner's report. On the receipt thereof, if it be to the effect that the materials are not suitable for use in methylation, the officer shall deliver the same to the distiller who shall be bound forthwith to remove the same from the premises and not to bring them back again. If, however, the Chemical Examiner's report is to the effect that the materials are suitable for use in methylation, the officer will cause them to be removed into and to be secured in the Distillery warehouse, and will at the same time enter them in the Register appended to these Rules.

(x) The officer must personally attend during the whole process of the methylation of spirits.

(xi) No permit may be granted for the removal by any person for private use of a larger quantity of methylated spirits than one gallon at a time.
